

Internet And Web Programming

Assessment-2

Name: Anvi Mittal

Registration Number: 19BCE0906

Lab Slot: L45+46

Write a program to demonstrate the concept of HTML, CSS and JavaScript for any application of your choice. Create a homepage (add details about the application/your personal details) containing the tabs to toggle between the other pages (registration, login pages).

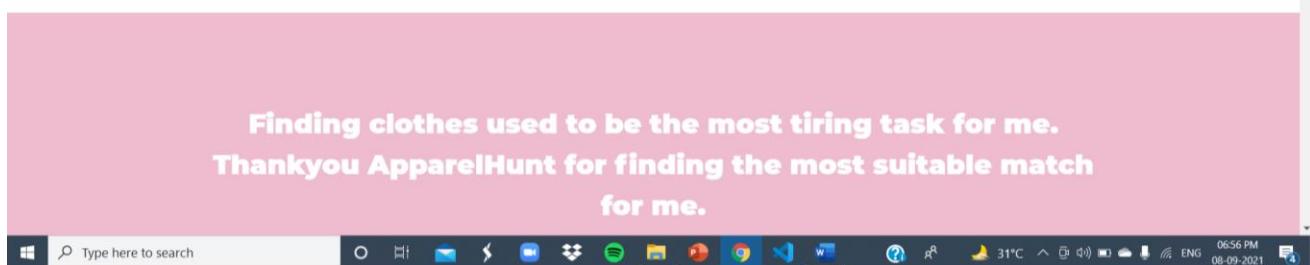

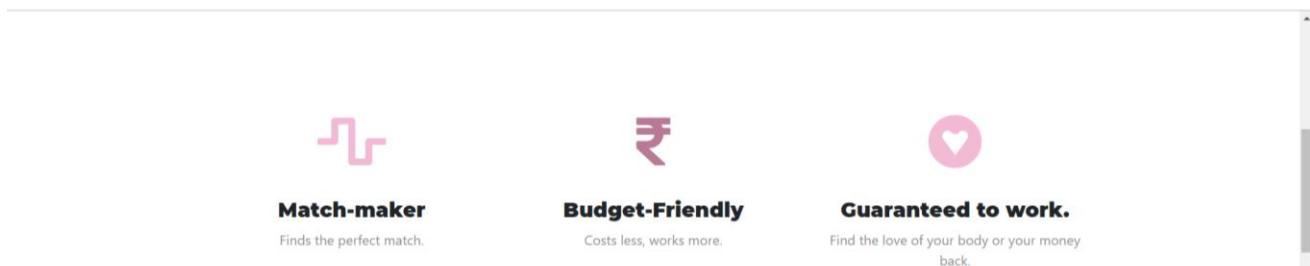

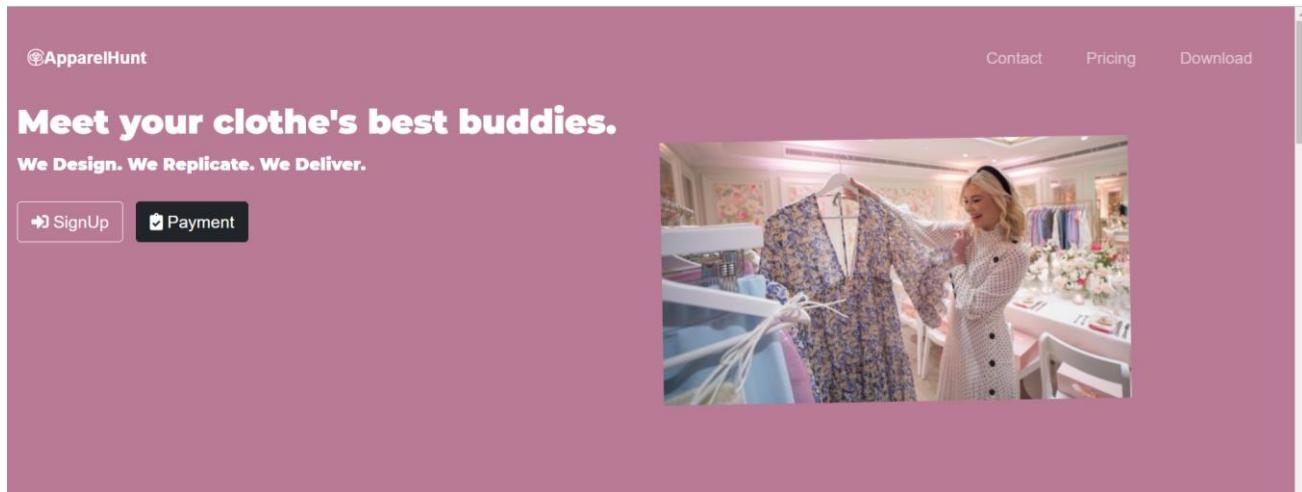

a. Add more customized HTML elements including media, files, etc.,

b. Apply CSS styles including selectors, box models, customized background - borders- text effects, multiple columns layout, etc.,

c. Use JavaScript to validate the fields like name, e-mail, mobile number, etc., in the registration and login pages

Enrollment Form

Sign in to get yourself enrolled! 

Name of Student:*	Enter your name	
Enter Password:*	Enter your password	
Confirm Password:*	Enter your password	
Enter your birthday:	dd - mm - yyyy 	
Gender:	<input type="radio"/> Male	<input type="radio"/> Female
Country:	Select 	
Phone Number:*	Enter your number	
Email ID:*	Enter your e-mail	
Instructions	<input type="text"/>	

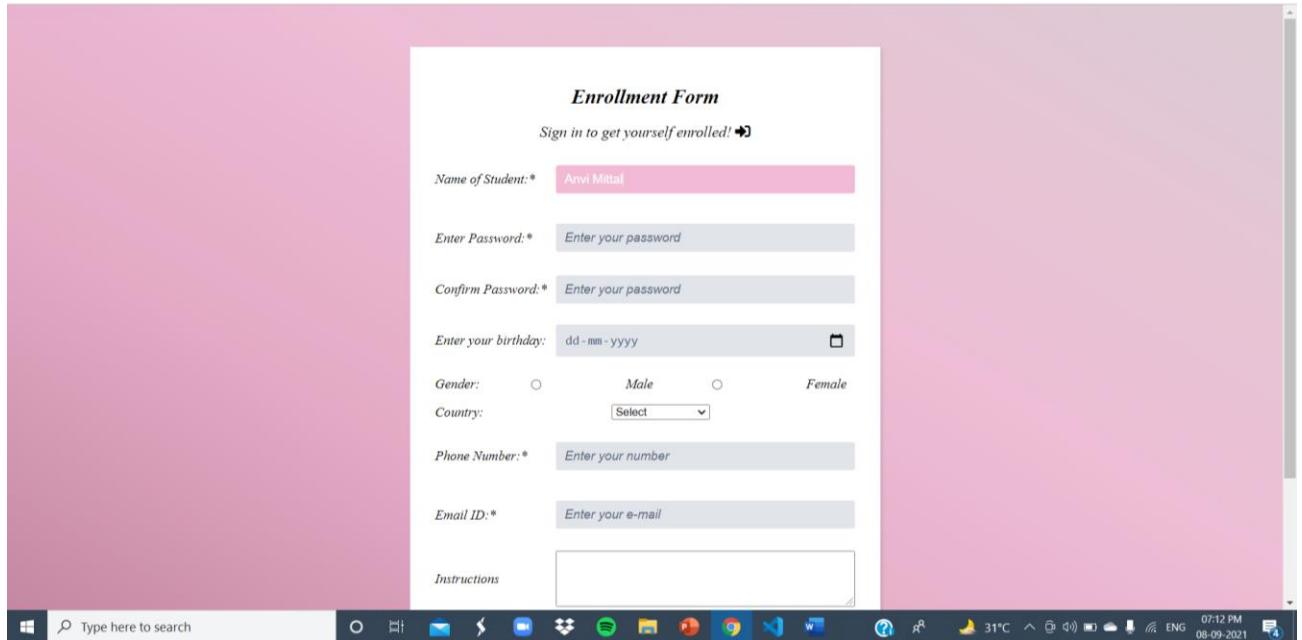

Enrollment Form

I hereby declare that I have proof read the above information

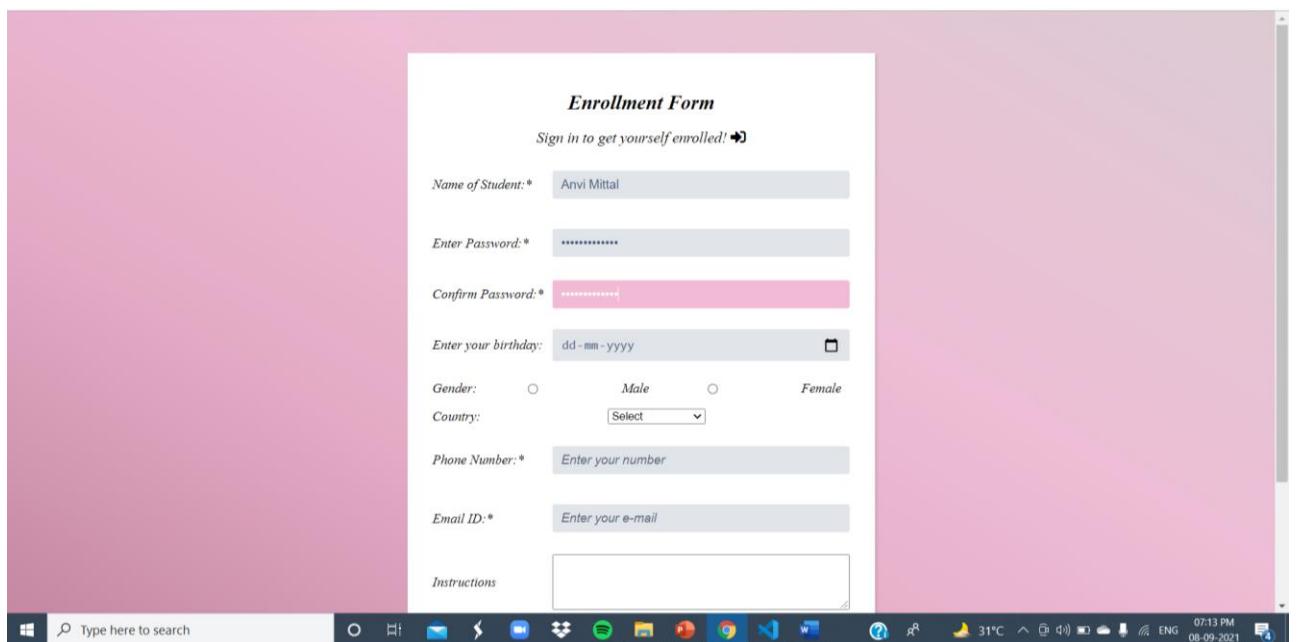

SUBMIT

Form Filling Procedure:

Step 1: Filling the name of the student.

Step 2: Filling the password as per the requirement (It should contain atleast 1 number, 1 uppercase, 1 lowercase and minimum 8 characters, if it does not match it will not proceed further)

Step 3: Entering the date of birth.

The screenshot shows a Windows desktop environment with a pink taskbar. An enrollment form window is open in the center. In the 'Enter your birthday:' field, a date picker is displayed, showing September 2021. The date 08 is selected, highlighted with a blue square. The gender field below it has a radio button next to 'Male' selected. The rest of the form includes fields for Name of Student (Anvi Mittal), Enter Password, Confirm Password, Phone Number, Email ID, and Instructions, along with a declaration checkbox at the bottom.

Step4: Entering the gender of the applicant, only one can be chosen at a time.

This screenshot is identical to the previous one, showing the same enrollment form window. However, the gender selection has changed: the radio button next to 'Female' is now selected, while the one for 'Male' is unselected. All other fields and the date picker remain the same.

Form Validation:

Password Validation:

Here, the password is as per the format established.

A screenshot of a Windows desktop environment. In the center is a web browser window titled "Enrolment Form". The page contains fields for Name of Student (Anvi Mittal), Enter Password (*****), Confirm Password (Enter your password), Enter your birthday (dd-mm-yyyy), Gender (Male selected), Country (Select dropdown), Phone Number (9810214634), Email ID (mittalanvi31@gmail.com), and Instructions (empty). Below these fields is a checkbox labeled "I hereby declare that I have proof read the above information". A large red "SUBMIT" button is at the bottom. At the very bottom of the screen is a taskbar with various icons and system status indicators.

Here, the password doesn't match with the enter password field.

A screenshot of a Windows desktop environment, similar to the previous one. The web browser window shows the same "Enrolment Form" page. The "Enter Password" field contains "****" and the "Confirm Password" field contains "Ente". A validation error message "Please match the requested format." is displayed in a yellow box next to the "Confirm Password" input field. All other fields (Name, Birthday, Gender, Country, Phone, Email, Instructions, and declaration) appear to be filled correctly. The red "SUBMIT" button is present at the bottom. The taskbar at the bottom of the screen includes a search bar, pinned app icons, and system status icons.

Here, the phone number is not in the required format, ie, only numbers with a length of 10 characters will be accepted.

The screenshot shows a Windows desktop environment with a registration form open in a browser window. The form fields include:

- Name of Student: * Anvi Mittal
- Enter Password: *
- Confirm Password: *
- Enter your birthday: dd-mm-yyyy
- Gender: Male (radio button selected)
- Country: Select (dropdown menu)
- Phone Number: * 1234 (error message: Please match the requested format.)
- Email ID: * mittalanvis@gmail.com (error message: Please match the requested format.)
- Instructions: (text area)

At the bottom, there is a checkbox labeled "I hereby declare that I have proof read the above information" and a red "SUBMIT" button.

Here, the mail id is not as per the format.

The screenshot shows a Windows desktop environment with a registration form open in a browser window. The form fields include:

- Name of Student: * Anvi Mittal
- Enter Password: *
- Confirm Password: *
- Enter your birthday: dd-mm-yyyy
- Gender: Male (radio button selected)
- Country: Select (dropdown menu)
- Phone Number: * 1234567892
- Email ID: * abcd (error message: Please include an '@' in the email address. 'abcd' is missing an '@'.)
- Instructions: (text area)

At the bottom, there is a checkbox labeled "I hereby declare that I have proof read the above information" and a red "SUBMIT" button.

Here, the checkbox not checked is shown via a pop-up.

A screenshot of a web browser displaying a registration form. The form fields are as follows:

- Name of Student: * Anvi Mittal
- Enter Password: * (redacted)
- Confirm Password: * (redacted)
- Enter your birthday: dd-mm-yyyy (redacted)
- Gender: Male (radio button selected)
- Country: Select (dropdown menu)
- Phone Number: * 1234567892
- Email ID: * abcd@gmail.com
- Instructions: (text area)

Below the form is a declaration checkbox labeled "I hereby declare that I have proof read the above information". A tooltip above the "SUBMIT" button says "Please check this box if you want to proceed." The "SUBMIT" button is highlighted in red.

The labels with an asterisk are required fields, in case of failure in filling of any fields will not submit the form as shown below.

A screenshot of a web browser displaying a registration form. The form fields are the same as the previous screenshot, but the "Email ID" field is empty. A validation message "Please fill out this field." is displayed in a red box with an exclamation mark icon over the "Email ID" input field. The rest of the form appears identical to the first screenshot.

All highlighted fields taken care of,

The screenshot shows the Visual Studio Code interface with the file `styles.css` open. The code defines various CSS rules for a navigation bar and features section.

```
css > # styles.css > ↗.features
33   font-size: 3rem;
34   line-height: 1.5;
35 }
36 /* Navigation Bars */
37 .navbar{
38   padding: 0 0 4.5rem;
39 }
40 .navbar-brand{
41   font-family: "Ubuntu", sans-serif;
42   font-size: 5rem;
43   font-weight: bolder;
44   position: fixed;
45 }
46 .navbar-item{
47   padding: 0 18px;
48   float: right;
49 }
50 .nav-link{
51   font-family: "Monogrammat-light", sans-serif;
52   font-size: 1.2rem;
53 }
54 .title-image{
55   width: 75%;
56   padding-top: 50px;
57   padding-bottom: 0;
58   transform: rotate(-1deg);
59 }
60 /* Features section */
61 .features{
62   padding: 18px;
63   color: #F3BADD;
64   margin-bottom: 1rem;
65 }
66 .features:hover{
67   color: #B97A95;
68 }
69 #features{
70   padding: 7% 15%;
```

The screenshot shows the Visual Studio Code interface with the file `styles.css` open. The code has been modified to include styling for the `.features` class and the `#press` selector.

```
css > # styles.css > ↗.features
61 .features{
62   padding: 18px;
63   color: #F3BADD;
64   margin-bottom: 1rem;
65 }
66 .features:hover{
67   color: #B97A95;
68 }
69 #features{
70   padding: 7% 15%;
71   background-color: #fff;
72   /* position: relative;
73   z-index: 1; */
74 }
75 .feature-title{
76   font-size: 1.5rem;

```

Ln 37, Col 19 Spaces: 2 UTF-8 CRLF CSS Go Live Prettier 07:03 PM 08-09-2021

The screenshot shows the Visual Studio Code interface with the file `styles.css` open. The code defines styles for input fields and a placeholder color. The placeholder color is set to #616a7e; font-style: italic;

```
C:\> Users > Dilip > Desktop > Web Development > IWP > # styles.css C:\Users\...\Desktop\IWP\# styles.css
132 .wrapper .form .inputfield .check .checkbox::before{
133     content: "";
134     position: absolute;
135     top: 1px;
136     left: 2px;
137     width: 5px;
138     height: 2px;
139     border: 2px solid;
140     border-color: transparent transparent #fff #fff;
141     transform: rotate(-45deg);
142     display: none;
143 }
144 .wrapper .form .inputfield .check input[type="checkbox"]:checked ~ .checkboxmark{
145     background: #F3BAD6;
146 }
147 .wrapper .form .inputfield .check input[type="checkbox"]:checked ~ .checkboxmark::before{
148     display: block;
149 }
150 .:placeholder{
151     color: #616a7e;
152     font-style: italic;
153 }
154 .wrapper .form .inputfield .btn{
155     width: 100%;
156     padding: 8px 10px;
157     font-size: 15px;
158     border: 0px;
159     background: #E1E5EA;
160     color: #47597E;
161     cursor: pointer;
162     border-radius: 3px;
163     outline: none;
164 }
165 
```

The screenshot shows the Visual Studio Code interface with the file `styles.css` open. The code includes a media query for a maximum width of 420px, which changes the flex-direction of the inputfield to column and align-items to flex-start. It also adds a submit button with a specific background color and font style.

```
C:\> Users > Dilip > Desktop > Web Development > IWP > # styles.css C:\Users\...\Desktop\IWP\# styles.css
162 font-size: 15px;
163 border: 0px;
164 background: #E1E5EA;
165 color: #47597E;
166 cursor: pointer;
167 border-radius: 3px;
168 outline: none;
169 }
170 .wrapper .form .inputfield .btn:hover{
171     background: #F3BAD6;
172     color: #fff;
173 }
